July 15, 2020

Brief update with regards to the current situation at the QEH emergency room and booking dental patients in our offices.

PLEASE NOTE PROTOCOLS HAVE NOT CHANGED FOR DENTAL TREATMENT.

Due to the two recent positive cases that appear to have originated from an essential worker at the QEH emergency department, we are advising you on the booking of dental patients in your office from this cluster group.

“Considering the time frame July 4 - 12, 2020, if you were a patient of the QEH emergency dept , worked a shift in the emergency dept, are currently being tested for Covid -19, or a close contact of one of these groups ;

treatment should be postponed for 2 weeks from the last positive test arising from this cluster group”.

Dr. Mike Connolly, Chairman

Covid 19, Task Force DAPEI
