

NSDA News Brief  
May 9, 2020

During the last 24 hours or so we have been hearing member concerns regarding a lack of communication from the NSDA to its members and between the Provincial Dental Board of Nova Scotia and the NSDA. We want to take this opportunity to reassure you that we are actively working to address your concerns and looking at ways to increase our communications. The NSDA and the Provincial Dental Board are in regular contact and the Return to Practice Advisory Group has met several times in the past week as well as in the **last 24 hours** and working on details. Your association will be updating you on a more frequent basis during these uncertain and changing times. We are grateful for your continued patience and support.

In the meantime, for the latest updates, view this week's written President's Message to Members and the latest President's Video Message to Members.
