Welcome to the FDI 2005 World Dental Congress, Montréal, Canada

FDI is pleased to join with the Canadian Dental Association to present the 2005 FDI Annual World Dental Congress (AWDC) — Canada's largest dental event in 2005. We also welcome the participation of the Order of Dentists of Quebec in this congress, which will combine CDA's annual convention and Les Journées dentaires internationales du Québec. The AWDC is also supported through the promotional efforts of the Quebec Dental Surgeons Association. We invite all members of the dental community from around the world to meet in Montreal for this great event.

Montreal is one of North America's best-equipped destinations for international conferences. Located in the heart of Montreal, the convention center — the Palais des congrès — has recently doubled its meeting facilities. The Palais is readily accessible — just a few minutes stroll from our congress hotels. You'll also find yourself within easy walking distance of Old Montreal, downtown shopping and Chinatown. Montreal is truly a great city to explore on foot, so bring comfortable shoes!

All members of the worldwide dental profession are invited to attend the scientific program and leading educational forums. FDI congresses are internationally recognized events that focus on the latest scientific topics affecting the profession globally. An interesting feature of the scientific program is a series of hands-on, limited attendance courses offered in several disciplines of dentistry.

The dental industry will showcase their innovative products and services at the World Dental Exhibition. Delegates will have access to the latest developments in dental technology, equipment and products. The exhibition will be located in the Palais, the same facility that will house the scientific program, allowing easy access during the intervals between scientific sessions or refreshment breaks.

Tours have been arranged with all ages in mind. Pre- and post-congress tours are offered to Niagara Falls, Toronto and Quebec City — all only a few hours away from Montreal. Day tours can see you visiting art galleries, white water rafting or exploring the sugar bush for a taste of our world famous maple syrup. Bring your family and friends to enjoy all that Canada has to offer.

Other exciting events include the Opening Ceremony featuring Canadian talent, the Canadian Night showcasing Canadian culture and the Gala Evening atop Mont Royal — Montreal's namesake mountain which provides a captivating view of the city. This year's congress will offer something for everyone.

Montreal is a beautiful city that embraces many cultures and languages. It is known for its old-world charm, while at the same time embracing technology and change. In short, it is the perfect place to celebrate the combination of tradition and innovation that marks the FDI Annual World Dental Congress.

Images used throughout this programme and on pages 2,3,26,27,28,29,30 and 31, are © Tourisme Montréal.

TOURISME
Montréal
OFFICE DES CONGRÈS ET DU TOURISME
DU GRAND MONTRÉAL

Monday 22 August PRE-CONGRESS COURSES

Presentation language: ENGLISH
FRENCH INTERPRETATION

VENUE: Palais des Congrès of Montréal

Price: CAN\$ 200

ADVANCED ESTHETIC DENTISTRY I AND II

All Day Course – Lecture

Elliot Mechanic, Canada

What does it take to create the esthetic dental practice of your dreams?

A lively highly entertaining presentation focusing on smile-design, preparation principles, lab communication, photography, continuing education, patient psychology, legalities and office design.

Price: CAN\$ 175

ENDODONTICS

Half Day Course – Pre Hands On Lecture / Morning and Afternoon Session Available

Predictably Successful Endodontics: How To Feel, Fill & Thrill Accessory Canals

Donald Yu, Canada

- Analytically Micro CT understand the apex and accessory canals
- 8 ways to locate and fill accessory canals
- 10 tips to prevent pain and misadventures
- 5 mechanical objectives to improve your success

Price: CAN\$ 175

Participation limited / 50 seats available

THE CUTTING EDGE OF PERIODONTICS

All Day Course – Seminars and Hands On Workshop

Seminars in the morning:

- A- Rapid Perio Triage
- B- Oral Malodor
- C- Abfractions and Fruit Juices

Hands On Workshop in the afternoon.

- A- Instrument Selection
- B- Sharpening Practical

Louis Touyz, Canada

This course reviews Periodontal Triage, Oral Malodor causes and management discusses Fruit-Juice Abuse and teaches clinical coping skills for these. Scaling and root-planing instrument description is followed by Hands-On Practicals of sharpening and use.

This programme is partially funded by Hu-Friedy

Price: CAN\$ 200

Participation limited / 15 seats available per session

MEDLEY OF RESIN COMPOSITE TECHNIQUES

Half Day Course – Hands On Workshop / Morning and Afternoon Session Available

Richard Trushkowsky, USA

This course will explore and allow the clinician to try a variety of matrices and retainers, contact formers, contouring instruments, polishing materials and natural shaded composites for expediting posterior composite placement.

Price: CAN\$ 200

Participation limited / 50 seats available per session

SPORT DENTISTRY AND CUSTOM MOUTHGUARD FABRICATION

Half Day Course – Hands On Workshop / Morning and Afternoon Session Available

Jean Luc Dion, Canada

Ray Padilla, USA

Paul Piccininni, Canada

Participants will learn about the various types of mouthguards and modifications for different sports. They will have the opportunity to each personally fabricate and finish a custom-made pressure laminated guard.

This programme is partially funded by Ash Temple Canada, Dreve Dentamid, Raintree Essix, Great Lakes Orthodontics, Space Maintainers Labs

Price: CAN\$ 100

Participation limited / 60 seats available

CARDIO PULMONARY RESUSCITATION (CPR) – ADULT/CHILD/INFANT

All Day Course

Brian Payne, Canada

Helping cardiac arrest victims before the administration of more advanced life support methods by medical or ambulance personnel. (CPR techniques demonstrated and tested on dummies)

Tuesday 23 August PRE-CONGRESS COURSES

Presentation Language: ENGLISH
FRENCH INTERPRETATION

VENUE: Palais des Congrès of Montréal

Price: CAN\$ 300

FREE-HAND BONDING IN ANTERIOR TEETH – CHALLENGING CERAMIC RESTORATIONS I AND II All Day Course – Lecture

Didier Dietschi, Switzerland

This lecture will cover:

- The indications for direct composites restorations
- The essential optical properties of natural tissues and restorative materials
- A detailed description of clinical procedures for achieving outstanding aesthetics and optimal function

Price: CAN\$ 175

Participation limited / 15 seats available per session

Attendance of the Pre Hands On Lecture is required in order to attend this Hands On Workshop

ENDODONTICS

Half Day Course – Hands On Workshop / Morning and Afternoon Session Available

Predictably Successful Endodontics: Schilder-Yu Vertical Compaction of Warm Gutta-Percha Technique

Donald Yu, Canada

- Predictably clean and fill the accessory canals with gutta-percha
- Perform effective envelop of motion, 5 biological objectives
- Understand thermoprofile of 3D compaction
- Explain the principles and THE TECHNIQUE: downpack & backpack

Price: CAN\$ 175

Participation limited / 15 seats available per session

AIR ABRASION – Its Role in the Evolving Continuum of Minimally Invasive Dentistry: A diagnostic and hands on experience on the various forms of conservative tooth preparation

Half Day Course – Hands On Workshop / Morning and Afternoon Session Available

Chris Bryant, Canada

Trends in pit & fissure caries (incipient/"hidden") demand new diagnostic and treatment approaches. Learn M.I.D. techniques that provide successful outcomes using composite resins and glass ionomers, while ensuring social responsibility to our patient base.

Price: CAN\$ 100

Participation limited / 60 seats available

CARDIO PULMONARY RESUSCITATION (CPR) – ADULT/CHILD/INFANT All Day Course

Brian Payne, Canada

Helping cardiac arrest victims before the administration of more advanced life support methods by medical or ambulance personnel.
(CPR techniques demonstrated and tested on dummies)

Wednesday 24 August SCIENTIFIC PROGRAMME MORNING

ESTHETICS I

Symposium / Panel Discussion

The demand for "extreme Dental Makeover" must be balanced to concern for natural tooth conservation and conservative aesthetic treatments

James Dunn, USA

Understand the "extreme makeover phenomenon" which drives our patients to aesthetic treatment and available alternatives

Occlusion and Esthetics

John N. Nasedkin, Canada

Long-lasting all-ceramic restorations require proper functional load. Preparation guidelines are needed for mutually protected occlusions and esthetically pleasing results. Computerized occlusal analysis is the key to bite force reduction and optimal disclusion patterns.

Principles of Esthetic Dentistry

Gerard Kugel, USA

- A basic understanding of the importance of occlusion in the success of any esthetic case.
- An appreciation for the importance of proper protocol when dentin bonding in order to prevent post-op sensitivity.

ORAL MEDICINE

Symposium / Panel Discussion

Dental Considerations for Patients with Common Medical Conditions

Michael Glick, USA

- How to use medical information gained from a standardized health history form
- How to provide safe and appropriate dental care by altering routine dental protocols according to the patient's medical condition

Hypertension 2005: The Rules, The Drugs, The Problems

Michael Siegel, USA

All dentists and hygienists routinely manage patients with hypertension. New hypertension guidelines were published in May, 2003. This lecture will cover blood pressure pathophysiology, major categories, pharmacologic actions and intraoral side effects of antihypertensive medications.

Contemporary Radiology in Dentistry

Robert Langlais, USA

- Identify transition issues to digital radiology
- Preview hand-held intraoral "cameras" for x-ray imaging
- State implications of advanced function panoramic imaging
- Preview 3-D CT cephalometric analysis
- Demonstrate cone beam volumetric CT
- Present imaging software considerations
- Discuss stereolithography

DENTAL MATERIALS:

Demand for Non-Metal Restorative Materials and Interface with Pulp Biology

Ivar Mjör, USA

Practice-based studies have shown that resin-based composite materials have gradually become the all-

round restorative material. Present-day composites fail from the same reasons as amalgam, i. e., the clinical diagnosis of secondary caries and restoration fractures.

MOTIVATION

Are We Having Fun, Yet?

Bruce Christopher, USA

This highly interactive session will literally have you coming out of your seats by learning how to leap from procrastinations and crash through comfort zones. You will learn how to make fears disappear; visualize goals, work together, move forward and have fun doing it.

GLAXOSMITHKLINE SYMPOSIUM

Successful Management of Dentine Hypersensitivity - a Fresh Look at the Dentine Surface

Dentine hypersensitivity remains a widespread but underdiagnosed problem with a variety of aetiological and predisposing factors. This symposium will focus on the exposed dentine surface and will explore preventive and management strategies that can easily be put into practice increasing the dental practitioners' confidence and competence to provide the highest levels of dental care

AFTERNOON

ESTHETICS II

Symposium / Panel Discussion

Adhesive procedures using direct and indirect aesthetic materials are complex yet functional restorations for patients demanding aesthetic dental procedures

James Dunn, USA

Understand the use of digital images to communicate aesthetic information to patients, laboratories and peers

Esthetic Solutions to Prosthetics Problems

John N. Nasedkin, Canada

Large bounded spaces are effectively managed with fixed-removable combinations. Removable partials are esthetic with crowns and precision attachment support. Converting PFG crowns to telescopic copings can support new fixed units enhancing C and B effectiveness.

Do's and don'ts

Gerard Kugel, USA

- An ability to choose the right ceramic material based on esthetics, function, preparation and tissue management.
- Determine what is fact vs. fiction in the ever-expanding world of tooth whitening.

AMALGAM WASTE MANAGEMENT

Putting Dental Mercury Pollution into Perspective

Derek W. Jones, Canada

Mercury trap efficiency, ethics of using them. Environmental impact, difference between inorganic and organic mercury. Myth of amalgam as a health hazard in dentistry. Politics and science of dental amalgam.

CAD/CAM - CEREC

Denis J. Fasbinder, USA

Understand the CEREC 3D technique for the fabrication of chair-side ceramic restorations. Appreciate the clinical and laboratory research evidence on the clinical effectiveness and longevity of CEREC restorations.

INFECTION CONTROL

Symposium / Panel Discussion

For Better or Worse

Gerard Condon, Australia

- Understanding the need for good infection control as part of a practice's risk management program
- Appreciating ethical and legislative obligations, as demonstrated in various jurisdictions
- Simple application of effective, economical and safe infection control in clinical practice

Emerging Infection - Challenges and Recommendations

John Molinari, USA

- Understand the rationale and applications of the most recent 2003 U.S. infection control guidelines for dentistry.
- Comprehend the occupational risks from contaminated sharps injuries, along with post-exposure healthcare worker protocols.
- Discuss approaches to minimize the impact of latex hypersensitivity in dental settings.

Dental Unit: From waterlines to disinfection

Jean Barbeau, Canada

- Provide the participant with up to date information on microbiology of dental unit waterlines, the nature of the infectious risk and ways to reduce the risk.
- Knowledge of chemical disinfection and ways to choose the right product.

COLGATE SYMPOSIUM I

Gingival Health: An increasing Health Risk

This Symposium will review the biochemical events that modify oral soft tissue including chronic inflammatory disease and its relationship to dental biofilm and overall health.

Thursday 25 August SCIENTIFIC PROGRAMME MORNING

A Team Approach to Periodontal, Implant and Restorative Procedures for Anterior Esthetics I

All Day Course

Frederic Muroff, Canada

Robert David, Canada

- Planning for ideal esthetics
- Correction of gingival recession, uneven gingival levels and excessive gingival display.
- Subgingival fracture management.
- Hard and soft tissue preservation and reconstruction.
- Esthetic anterior pontics.
- Implants provisionalization.
- Team approach to clinical cases.

IMPLANTOLOGY

The implant-supported partial restoration: Myths, Evolution and Clinical reality

Pierre Boudrias, USA

During this presentation, we will focus our attention on treatment planning, loading modalities, abutment connections and restorative design options to improve functional and esthetic success with single and multiple teeth restorations.

THE FUTURE OF PERIODONTAL THERAPY

Risk Assessment in the Management of Periodontitis

Roy C. Page, USA

- Patients vary widely in risk and risk plays a major role in periodontitis
- Factors that enhance risk
- Why traditional subjective assessment of risk is invalid
- How to measure risk and use risk in diagnosis and treatment planning

ORAL CANCER

Advances in Early Detection (Biomarkers) Clinical Manifestations

Saman Warnakulasuriya, United Kingdom

- Systematically screen the oral mucosa
- Familiarize with the clinical presentation
- Biopsy as appropriate
- Apply new screening tools
- Know about biomarkers available to predict risk
- Follow up of low-risk lesions

David Wong, USA

Emerging research tools in genomics and proteomics are revolutionizing advances in the clinical diagnostics of diseases, including salivary diagnostics. This lecture presents the soon to be available saliva-based diagnostics for diseases and oral cancer.

PFIZER SYMPOSIUM

Periodontal Disease - The Extent and Cost to Manage - Understanding the Dynamic Biofilm - Antiseptic Rinses and their Essential role in self-management of Gingivitis

This comprehensive three part symposium explores the prevalence of gingival disease in immigrant populations of developed countries such as Canada, and the relative cost to governmental healthcare programs to manage and treat the problem. The attendees will also be given a vivid description of the intricacies of the dynamic oral biofilm environment while the third speaker will describe the evaluation of antiseptic rinses and their integral role in helping patients self-manage gingivitis.

AFTERNOON

A TEAM APPROACH TO PERIODONTAL, IMPLANT AND RESTORATIVE PROCEDURES FOR ANTERIOR ESTHETICS II

All Day Course

Frederic Muroff, Canada

Robert David, Canada

- Planning for ideal esthetics
- Correction of gingival recession, uneven gingival levels and excessive gingival display.
- Subgingival fracture management
- Hard and soft tissue preservation and reconstruction.
- Esthetic anterior pontics.
- Implants provisionalization.
- Team approach to clinical cases

PREVENTIVE DENTISTRY

The Effect of a Needs Related Preventive Program on Tooth Loss, Dental Caries and Periodontal Disease in Adults

Per Axelsson, Sweden

From 1972 adults received a needs-related preventive program by a dental hygienist (60% once/year; 30% twice/year and 10% 3-4 times/year). The mean number of lost teeth and new caries lesions per 30 years was only 0.6 and 1.7. Periodontal attachment was unaltered irrespective of age (50-95 years old).

LOCAL ANESTHESIA – THE DENTISTS ALLY

Stanley Malamed, USA

In this program we will discuss (1) newer techniques of local anesthetic (LA) delivery; (2) a comparison of LA drugs; and (3) complications associated with LA in dentistry

ORAL MANIFESTATION OF NUTRITIONAL DISORDERS

Oral Health, Nutrition and Systemic Disease

Kaumudi Joshipura, USA

Oral conditions are associated with increased risk of diseases such as diabetes and cardiovascular disease. Possible pathways for these associations will be discussed with a focus on nutritional status as a potential mediator or co-factor.

COLGATE SYMPOSIUM II

Innovative Approaches to Reduction in Oral Bacteria

This symposium will review clinical findings showing the efficacy and benefits of cleaning the oral soft tissues and reducing oral malodor, leading to improved oral hygiene and oral health.

Friday 26th August SCIENTIFIC PROGRAMME MORNING

SPORT DENTISTRY

Dentistry and the Olympic Games – “Citius, Altius, Fortius... and carious”

René Fasel, Switzerland

This lecture will provide a brief historical review of the Dental Service at the Olympic Games over the past 70 years, but will focus on the dental health of the athlete and the adverse effect this may have on elite performance.

Sport Dentistry and the Role of the Team Dentist

Paul Piccininni, Canada

This talk will review the role of the Team Dentist from pre-season screenings to on-field emergency management of trauma. Issues such as mouth protection, mouthguard regulations, doping control, sport beverages and concussion will be addressed in multimedia format.

Trauma Prevention through Modern Athletic Mouthguards

Ray Padilla, USA

The attendee will learn about the many types of mouthguards available to the recreational and elite athlete and will be able to identify the best of these. Modern pressure laminated guards will be discussed in detail and the ability to custom design the protection to meet the needs of the sport will be stressed.

GERODONTOLOGY – A SYMPOSIUM

Angus Walls, United Kingdom

This presentation will focus on the relationships between oral health and nutrition in the older person covering both the clinical problems of caries, with an emphasis on the management of root caries, and adequacy of dietary intake in our older patients.

Practical Tips for Caring for Older Adults

Linda C. Niessen, USA

At the end of this program, the participant will be able to:

- List the various topical fluorides and their indications
- Prescribe topical fluorides for high risk patients
- Prescribe therapeutics for oral dryness

PEDODONTICS: MULTIDISCIPLINARY APPROACH TO THE PROBLEM OF HYPODONTIA

Interdisciplinary Approach to the Management of Hypodontia

June Nunn, Ireland

Gain an understanding of the presentation of hypodontia and its aetiology. Learn about the interdependence of the different dental specialties in treatment planning for hypodontia. Consider parent and patients perceptions of hypodontia.

Oral Surgical Aspects of Hypodontia

J.G. Meecham, United Kingdom

Gain an understanding of the role of oral surgery in the management of hypodontia. Appreciate how oral surgery can aid orthodontic and prosthodontic management. Understand the success of different exposure techniques and tooth transplantation.

RISK MANAGEMENT IN PRACTICE

The importance of Communication

Kevin Lewis, United Kingdom

- To highlight the role of communication in the increased risks created by scientific and technical advances in dentistry
- To explain how complaints and litigation can be avoided if the whole dental team has outstanding communication skills

PHILIPS ORAL HEALTHCARE SYMPOSIUM The Biofilm Revolution

This symposium will explore the diverse communities of biofilms, their resilience, and the strides that are being made to block their damaging activity. Exploration of the systemic risks from pathogens living in dental plaque biofilms which may enter the bloodstream will be reviewed. Recent technologies for oral biofilm removal will be discussed.

AFTERNOON

ENDODONTICS

Causes of Failures

Kishore Gulabivala, United Kingdom

The lecture will review the evidence for causes of failure in Endodontics. Participants should be able to understand the definition of treatment failure and its clinical manifestation. The commonest causes of failure will be discussed.

Management of Failures

Peter Cathro, New Zealand

Following an outline of the aetiology of Endodontic failures, the indications for conventional re-treatment or a surgical approach will be discussed. The evidence for different irrigation, medication and obturation protocols will be covered, along with expected outcomes. What is new on the horizon?

PAIN AND FEAR IN DENTISTRY

Differentiating Dental Phobia from Dental Anxiety: Strategies for Dental Practice

Ruth Freeman, United Kingdom

The learning objective is to provide dentists with a dental anxiety schema from which they may differentiate dentally anxious from dentally phobic patients in order to link the patient's past dental history and intensity of anxiety to appropriate treatment regimes using the schema.

ORAL SURGERY

Bone Augmentation Techniques

Jörg Neugebauer, Germany

Reconstruction of the edentulous ridge requires different surgical approach depending on the defect. A minimal invasive procedure for out-patient hip-graft procedure and the various options for distractions osteogenesis will be shown for the pre-implantological treatment.

ORTHODONTICS FOR THE GP

Concepts of Early Treatment

Hideo Mitani, Japan

- Why is the early treatment necessary?
- What is the problem causing malocclusion in early age and how are they dealt with?
- What malocclusion should be or can not be corrected in early stage?

Root Resorption – Etiology and Prevention

Roberto Justus, Mexico

- Understand the challenges presented by root resorption
- Describe the classification and identify the risk factors for root resorption
- Apply the diagnostic tools
- Implement prevention and also adequate treatment

GLAXOSMITHKLINE SYMPOSIUM

Oral effects of systemic medications

This symposium will address the challenge to the dental professional of the increasing numbers of prescription medications that have side-effects relating to the oral cavity and dental health.

Saturday 27th August SCIENTIFIC PROGRAMME MORNING

TRAUMATOLOGY

Experiences with Replantation and Transplantation

Mitsuhiro Tsukiboshi, Japan

The indications, techniques, wound healing (pulp healing and PDL healing) and long term results of replantation and transplantation in dental trauma will be shown in the presentation.

BRUXISM AND SLEEP DISORDERS

The Understanding of Sleep-Related Problems in Dentistry

Takafumi Kato, Japan

This program will be intended to describe bruxism and to introduce sleep disorders related to oral health. The understandings of these issues will help clinicians better manage patients with concomitant sleep and oral health problems.

TECHNICIAN PROGRAM

CERCON - New Ways in the All-Ceramic Dental Technology

Peter Finke, Germany

Analogously to clinical studies, CERCON has proved itself very well in regard to strength and safety. Join the modern art of telescopic dental technology, new solution possibilities in implantology, All-ceramic abutments and CERCON supraconstructions as a view of tomorrow's technology.

YOUNG DENTIST PROGRAM

General Practice in Canada

James L. Armstrong, Canada

Locating and managing a successful dental practice is harder than a medical practice. Clinical skills have little correlation with practice success. We will cover the strategy, marketing, and finance tools needed for profitable practices.

Prosthodontic Treatment: Concepts for New Dentists

Stephen Smith, United Kingdom

We will discuss the conservative approach to modern Prosthodontics. The inter-relationship between specialties will be emphasised as will the modern view to utilise more adhesive techniques than classic heavy tooth preparation. Implant dentistry's role in this will be discussed.

LOCAL ANESTHESIA

Reasons for Failure and Modalities for Success

David Isen, Canada

Profound local anesthesia is not guaranteed – especially in the mandible. This seminar will

examine why incomplete anesthesia occurs. New and established techniques to remedy this frustrating phenomenon will also be explored.

PROCTER AND GAMBLE SYMPOSIUM

Recent Advances in Therapeutic Oral Care Products

In spite of the proliferation during the past decade of oral care products that provide primarily cosmetic benefits, there remains a need for products which can effectively deliver therapeutic benefits as well. This need is particularly evident in North America and Western Europe as the "baby boomer" population ages. This symposium will detail some of our emerging oral care technologies which have the promise of making a significant positive impact on the therapeutic product options available to consumers.

AFTERNOON

THE CRACKED TOOTH SYNDROME

Ulla Pallesen, Denmark

Symptomatic cracks in apparently healthy teeth are seen as a growing problem. The lecturer will focus on localization, prevalence, symptoms, etiology, diagnosis and differential diagnosis as well as prevention of incomplete fractures in dentine.

METAL SUBSTITUTES IN FIXED PROSTHODONTICS – METHODS, MATERIALS AND MECHANICS

Anselm Wiskott, Switzerland

Present the new resins, ceramics and their composites. Determine their fields of application and the principles that underlie their development. Specify the mechanics and failure characteristics of these structures.

EMERGENCIES IN THE DENTAL PRACTICE: HELP

Raj Rayan, United Kingdom

Yusof (Joe) Omar, United Kingdom

The speakers will set out clear and practical advice on the management of emergencies in your practice. They will demystify the drug box and simplify the equipment required for medical and dental emergencies.

ORAL B SYMPOSIUM

Tooth Whitening: The Evidence

This session answers the questions: does whitening work, how well, in whom, and does it cause damage?

The answers are: yes, it depends, it depends and, it depends. The variety of whitening agents - concentrations and delivery systems, manufacturers and patients, are all reflected in the vagaries of these answers and add to the confusion among both professionals and patients.

This session demystifies the questions and provides clear clinical highlights of the methods, the results, the benefits and adverse events. Attendees will be able to leverage these results enabling them to make evidence-based decisions about whitening treatments.

For continual updates on the Scientific Programme please visit:

www.fdiworldental.org

THE FOLLOWING WORKSHOPS WILL ALSO BE HELD DURING FDI 2005:

• Financing of Oral Health Care

This workshop organised by the Dental Practice Committees will explore different ways of financing oral health care in different counties. Examples from tax-funded public systems, state insurance systems and liberal health markets will highlight different ways of providing oral health care to populations around the globe.

• The Oral Health Care Team – Improving Access through adapted Workforce

Many populations around the world do not have access to appropriate oral health care services that meet their needs. The challenge of developing adequate professional workforce will be at focus in the workshop organised by the World Dental Development Committee. International speakers from different countries will highlight various models of delegation and expanded oral care teams that include also other health care professionals.

• Oral Care in Remote Areas

How to improve access to oral care in geographically remote regions? How to motivate dental professionals to serve in rural areas? What type of care is needed and can be provided at a reasonable cost? These and other questions will be discussed during the workshop co-organised by the World Dental Development and Public Health Committee and other organisations.

• World Military Dental Congress Section of Defence Forces Dental Services

The FDI Congress will be preceded by the Military Congress meeting of the Section of Defence Forces Dental Services from 19 to 23 August 2005. The meeting will be held at the Hotel Delta Centreville.

The Military Congress is being organized by the Canadian Forces Dental Services and Col Scott A. Becker, Director Dental Services, will be the host. An invitation to participate in the conference is being extended to the Heads of dental services and other dental officers of military dental services around the world.

Lundi 22 Août

Sessions Pré-Congrès

Programme FRANCOPHONE

LIEU : Palais des Congrès de Montréal

Prix: CAN\$ 175

ENDODONTIE CLINIQUE

Cours d'une journée – Matinée – Conférence

Isabelle Cochet – France

Jean Yves Cochet – France

Les nouveautés technologiques nous permettent de réaliser avec efficacité et précision une endodontie respectueuse des données acquises de la recherche.

Les nouveaux matériaux comme le MTA ProRoot nous autorisent à traiter et sauver des dents qui, jusqu'à présent, étaient condamnées à l'extraction.

Prix: CAN\$ 175

PATHOLOGIE ENDODONTIQUE

Cours d'une journée – Après-midi – Conférence

Jean Yves Cochet – France

Isabelle Cochet – France

L'objectif de traitement des lésions est l'élimination bactérienne qui passe par l'utilisation des solutions désinfectantes et de médicaments temporaires.

Les conséquences médicales des pathologies d'origine endodontique nécessitent l'utilisation d'une imagerie performante (classique et scanner) surtout dans le traitement des pathologies sinusiennes.

Prix: CAN\$ 175

PRINCIPES D'ORTHODONTIE MODERNE ÉLÉMENTAIRES

Cours d'une journée – Matinée – Conférence pré atelier

Patrice Pellerin – Canada

Charles Rodrigue – Canada

Revoir les principes de diagnostic, de planification des cas et de mécanique élémentaire dans la sélection des traitements

d'orthodontie car ce n'est pas le nombre de cas entrepris qui importe mais le nombre de cas complétés.

Prix: CAN\$ 175 Prix requis

Il est indispensable d'assister à la conférence pré atelier du matin pour s'inscrire à cet atelier

Audience limitée - 60 places disponibles

LE DIAGNOSTIC ET LA PLANIFICATION DES TRAITEMENTS MINEURS

Cours d'une journée – Après-midi – Atelier

Patrice Pellerin – Canada

Charles Rodrigue – Canada

Mettre en application les objectifs du cours pré-atelier dans l'analyse de cas, la planification de ceux-ci et l'élaboration d'un plan de traitement en équipe de 5 participants à partir de données cliniques des cas échantillonnés.

Prix: CAN\$ 350

Audience limitée - 20 places disponibles

CHIRURGIE PARODONTALE

Cours d'une journée – Atelier

Pietro Di Battista – Canada

Se familiariser aux chirurgies osseuses et en comprendre les raisons.

Techniques:

- Greffe gingivale libre vs de tissu conjonctif
- Élimination des poches vs réduction
- Allongement de couronne : dent monoradiculée vs multiradiculée

Prix: CAN\$ 175

Audience limitée - 15 places disponibles par séance

LA FIXATION ENDO-PROTHÉTIQUE POUR PROTHÈSES IMPLANTO-PORTÉES AMOVIBLES

Cours d'une demi-journée – Matinée et après-midi au choix - Atelier

Démonstration et manipulation des composantes

Richard Taché – Canada

L'édentement complet des deux maxillaires est cause d'un grand déficit anatomo-physiologique chez nos patients. Deux implants à la mandibule et une fixation mécanique amovible assurent une réhabilitation durable et efficace.

Prix: CAN\$ 100

Audience limitée - 60 places disponibles

RÉANIMATION CARDIO-RESPIRATOIRE (RCR) – ADULTE/ENFANT/BÉBÉ

Cours d'une journée

Brian Payne – Canada

Aider les victimes d'arrêt cardiaque, en attendant l'administration de méthodes plus avancées de soutien de la vie par les ambulanciers ou le personnel médical.

Techniques de R.C.R. démontrées et pratiquées sur mannequins

Mardi 23 Août

Pré-Congrès Courses

Prix: CAN\$ 175

Audience limitée - 15 places disponibles par séance

PRÉPARATION ET OBTURATION CANALAIRE : PROFILE®, PROTAPER® ET THERMAFIL®

Cours d'une demi-journée – Matinée et après midi au choix - Atelier

Isabelle Cochet – France

Jean Yves Cochet – France

Les objectifs endodontiques actuels obligent au choix d'une technique fiable, rapide, reproductible et performante. Les systèmes de préparation Profile, et Protaper, permettent avec l'obturation Thermafil, une endodontie de qualité en omnipratique dans le respect des critères de l'endodontie moderne.

Ce programme a été financé avec la participation de Tulsa Dental

Prix: CAN\$ 175

PRINCIPES D'ORTHODONTIE MODERNE AVANCÉS

Cours d'une journée – Matinée – Conférence pré atelier

Patrice Pellerin – Canada

Charles Rodrigue – Canada

Revoir les principes de diagnostic, de planification des cas et de mécanique plus élaborée. Amener les participants à comprendre les effets secondaires des mécaniques utilisées.

Prix: CAN\$ 175 Prix requis
Il est indispensable d'assister à la conférence pré atelier du matin pour s'inscrire à cet atelier
Audience limitée - 60 places disponibles

LE DIAGNOSTIC, LA PLANIFICATION ET LA RÉANALYSE DES TRAITEMENTS PLUS COMPLEXES

Cours d'une journée – Après-midi – Atelier

Patrice Pellerin – Canada
Charles Rodrigue – Canada

Mettre en application les objectifs du cours pré atelier dans l'analyse de cas fournis par les participants. Ré-analyser des cas déjà en traitement fournis par les participants.

Prix: CAN\$ 175

ESTHÉTIQUE I

Cours d'une demi journée – Matinée

Les Restaurations adhésives Partielles sur dent déulpée :
Préserver pour durer

Gil Tirlet – France

Yves Allard – France

L'objectif de cette présentation sera d'envisager la restauration de la dent déulpée unitaire selon une approche thérapeutique moderne, conservatrice et adhésive.

Prix: CAN\$ 175

ESTHÉTIQUE II

Cours d'une demi journée – Après midi

Les systèmes céramo-céramiques : les réalités cliniques.

Gil Tirlet – France

L'objectif de cette présentation sera d'étudier l'apport des principaux systèmes céramique tout en évaluant leurs performances cliniques à partir des données de la littérature.

Prix: CAN\$ 175
Audience limitée - 15 places disponibles par séance

AIGUISAGE

Cours d'une demi journée – Matinée et après-midi au choix - Atelier

L'affûtage: Ah! Non, pas encore!

Sylvie Martel – Canada

- Reconnaître les caractéristiques structurales des instruments courants en parodontie.
- 9De maîtriser les principes de base de l'affûtage.
- D'expérimenter l'affûtage d'instruments avec différentes techniques et appareils mécanisés.

Prix: CAN\$ 100

Audience limitée - 60 places disponibles

RÉANIMATION CARDIO-RESPIRATOIRE (RCR) – ADULTE/ENFANT/BÉBÉ

Cours d'une journée

Brian Payne – Canada

Aider les victimes d'arrêt cardiaque, en attendant l'administration de méthodes plus avancées de soutien de la vie par les ambulanciers ou le personnel médical. (Techniques de R.C.R. démontrées et pratiquées sur mannequins)

Mercredi 24 Août PROGRAMME SCIENTIFIQUE MATINÉE

ENDODONTIE

Conférence – Matinée et après-midi au choix

Techniques récentes en endodontie chirurgicale

Bertrand Khayat – France

Les techniques récentes faisant appel aux inserts à ultrasons et au microscope opératoire seront exposées et illustrées par de nombreux cas cliniques permettant d'évaluer les remarquables perspectives de conservation des dents par l'endodontie chirurgicale.

ODONTOLOGIE PÉDIATRIQUE

Eruption des dents permanentes : facteurs locaux influents et mise en œuvre thérapeutique

Elia Sfeir – Liban

Ankyloses, rizophyses atypiques, kystes dentigères... peuvent dévier ou même empêcher l'éruption des dents permanentes sous-jacentes. Notre objectif est de présenter le traitement de ces facteurs et le suivi pour éviter des complications ultérieures.

PARODONTOLOGIE

De la formation du biofilm à l'élimination de la plaque dentaire

Michel C. Brex – Belgique

Différentes définitions seront revues et corrigées : pellicule, biofilm plaque, materia alba, etc. La manière dont les antiseptiques doivent être jugés et utilisés sera ensuite abordée, en sus- et en sous-gingival, sans et avec nettoyage mécanique.

LE CONTOUR, LE CONFORT, LA FONCTION, LA PHONÉTIQUE ET L'ESTHÉTIQUE D'UNE RÉHABILITATION IMPLANTO-PORTÉE

Édentation partielle

Yvan Poitras – Canada

Le profil d'émergence de la dent détermine non seulement la position de l'implant mais prescrit ou impose les procédures d'aménagement des tissus durs et mous et demeure la base du succès esthétique et fonctionnel de la restauration prothétique finale.

APRÈS MIDI

ORTHODONTIE

Intercepter maintenant ou traiter plus tard

Danielle Boivin – Canada

Quel est le meilleur moment pour traiter un jeune patient qui présente un problème orthodontique? Nous évaluerons les situations où un traitement interceptif est indiqué et les limites de ce genre de traitement.

PARODONTIE

Thérapies médicamenteuses topiques et systémique en parodontie

Véronique Benhamou – Canada

Une révision objective, basée sur des évidences scientifiques, de l'utilisation des différents traitements médicamenteux pour compléter la thérapie parodontale, incluant les antibiotiques systémiques et locaux, anti-inflammatoires, antiseptiques, dentifrices, mélanges "maisons" etc.

LE CONTOUR, LE CONFORT, LA FONCTION, LA PHONÉTIQUE ET L'ESTHÉTIQUE D'UNE RÉHABILITATION IMPLANTO-PORTÉE

Édentation complète

Yvan Poitras – Canada

Remplacer les dents d'une manière permanente en ayant recours à la chirurgie implantaire en respectant tous les aspects biomécaniques, fonctionnels est dans les zones esthétiques l'un des traitements les plus difficiles à réaliser. Ceci demande parfois au praticien un aménagement osseux préalable important.

Jeudi 25 Août PROGRAMME SCIENTIFIQUE MATINÉE

MATÉRIAU ESTHÉTIQUE

Dentisterie adhésive : évolution, évaluation

José Vreven – Belgique

Classifier les différents systèmes adhésifs selon le mode d'action et la mise en œuvre. Etablir des critères de choix pour le praticien et établir une sélection.

CHIRURGIE BUCCALE

La gestion des complications et des échecs en chirurgie buccale

Ahmed Laroussi – Maroc

En chirurgie buccale, échecs et complications peuvent survenir à tout moment.

Pour bien les gérer on doit maîtriser comment les prévenir et les traiter; ainsi que leurs causes liées aux techniques chirurgicales et anomalies anatomiques.

PARODONTIE

Parodonte réduit et implantologie

Jacinthe Larivée – Canada

Quand devrait-on prendre la décision d'extraire des dents pour les remplacer par des implants?
Comment procéder à ces extractions afin de préserver les sites d'extraction pour la future implantation?
Comment restaurer les sites inadéquats?

LÉSIONS PRÉCANCÉREUSES

Ihsane Benyahya – Maroc

L'objectif pédagogique est de permettre aux praticiens un dépistage précoce des lésions précancéreuses et des patients à risque
Des arbres décisionnels les guidant dans la conduite à tenir sont proposés.

APRÈS MIDI

PROSTHODONTIE

La restauration partielle implanto-portée : Mythes, évolution et réalités cliniques

Pierre Boudrias – Canada

Nous porterons notre attention sur la planification, les modalités de mise en charge, les piliers et les options restauratrices dans le but d'améliorer le succès esthétique et fonctionnel des restaurations partielles unitaires et multiples.

ENDODONTIE

Retraitement endodontique : Un art, des techniques

Normand Aubre – Canada

Maryse Major – Canada

Cette présentation permettra aux participants d'acquérir les notions nécessaires au diagnostic et à la conception du plan de traitement associé à ce traitement ainsi que la démonstration des techniques impliquées lors de cette thérapie.

PARODONTIE

Implications médicales dans le traitement de la parodontite

Élise Shoghikian – Canada

Plusieurs conditions médicales tel le diabète et l'ostéoporose contribuent à la progression de la parodontite. Les changements hormonaux peuvent également moduler le cours de la maladie. Les résultats des récentes études scientifiques seront discutés.

LA FIXATION ENDO-PROTHÉTIQUE POUR PROTHÈSES IMPLANTO-PORTÉES AMOVIBLES

Exposé théorique soulignant l'absence de structures fixées

Richard Taché – Canada

Les restaurations prothétiques amovibles implanto-portées conviennent à la plupart de nos patients complètement édentés. Le lien prothèse-implants doit assurer le confort, l'efficacité et la longévité du traitement. Nos structures de soutènement répondent-elles à ces critères?

Vendredi 26 Août PROGRAMME SCIENTIFIQUE MATINÉE

PROSTHODONTIE

Reconstitution corono-radiculaires de la dent dépulpée

Marc Bolla – France

La reconstitution d'une dent dépulpée ne doit plus être réalisée de manière quasi-réflexe en appliquant à la dent le même mode de restauration, sans tenir compte de son délabrement ou de sa position sur l'arcade.

IMAGERIE NUMÉRIQUE

De la théorie à la pratique

Manon Paquette – Canada

Malgré les avantages de l'imagerie numérique, bon nombre de dentistes hésitent toujours à adopter cette technologie. Cette présentation vise à fournir les connaissances nécessaires permettant de comparer les systèmes d'imagerie actuels ainsi qu'à illustrer l'impact de l'imagerie numérique dans la pratique dentaire.

DENTISTERIE PRÉVENTIVE ET COMMUNAUTAIRE

L'approche globale préventive du cabinet dentaire

Patrick Hescot – France

- expliciter la prévention au niveau du praticien, du patient, du cabinet dentaire
- traiter la gestion du stress et environnement pour le praticien, celle de la douleur pour le patient
- aborder des règles de protection environnementales

CHIRURGIE

Chirurgie au quotidien

Huan Pham – Canada

Trucs et techniques pour devenir plus efficace et s'améliorer dans la pratique de la chirurgie buccale de tous les jours en la rendant plus sécuritaire et plus confortable pour le patient.

APRÈS MIDI

PROSTHODONTIE

Nouvelle porcelaine / LAVA

Robert Valiquette – Canada

L'évolution rapide dans le domaine des céramiques dentaires et des technologies assistées par ordinateur ouvre de nouvelles avenues de traitement sans métal. Que faut-il savoir avant d'intégrer ces systèmes utilisant l'oxyde de zirconium à notre pratique?

PATHOLOGIE

La biopsie : techniques, indications et intégration dans une pratique dentaire moderne.

Julien Ghannoum – Canada

Christian Robin – Canada

À la fin de cette conférence, vous serez en mesure de savoir:

- Quand, pourquoi et comment procéder à une biopsie
- Quand et à qui référer le patient
- Intégrer la biopsie dans une pratique générale

GESTION DES COMPLICATIONS IMPLANTAIRES

Marc Bert – France

Les implants ont actuellement une prévision du succès de 95%, ce qui génère mathématiquement 5% d'échecs. La conférence s'attachera :

- à analyser les causes principales de ces échecs
- à envisager un traitement réfléchi des échecs

GÉRONDOTOLOGIE

Les impacts des conséquences du vieillissement sur la pratique dentaire quotidienne

Christian Caron – Canada

Ce cours décrira le lien entre la santé buccale et l'état nutritionnel, les choix et compromis de traitements acceptables dans différentes situations problématiques de personnes âgées médicalement compromises ou avec limitations physiques ou cognitives.

Samedi 27 Août

PROGRAMME SCIENTIFIQUE

MATINÉE

ALTERNATIVES AUX MÉTAUX EN PROTHÈSE FIXE. MÉTHODES, MATÉRIAUX ET MÉCANIQUE.

Anselm Wiskott – Suisse

Présenter les nouvelles résines, céramiques et leur composites. Déterminer leurs domaines d'application et les principes qui sous-tendent leur développement. Préciser la mécanique et les sources d'échec de ces structures.

MANAGEMENT DES PATIENTS À RISQUE

Eric Lessard – Canada

Cette conférence magistrale vous permettra de mieux comprendre :

- Les interactions entre les maladies systémiques et la cavité buccale
- La prise en charge bucco-dentaire des patients à risque

MATÉRIAUX DENTAIRES

Cytotoxicité des matériaux de reconstitution

Michel Goldberg – France

Les monomères libres des résines dentaires activent les radicaux oxydants, provoquant l'apoptose. L'incidence des réactions pulpaires adverses peut être réduite in vitro par des agents anti-radicaux oxydants, et in vivo, par une stratégie clinique.

ODONTOLOGIE PÉDIATRIQUE

Traitements pulpaires et canaux des dents lactéales

Charles Pilipili – Belgique

L'endodontie de la dent lactéale reste un sujet à controverse. Une meilleure connaissance anatomophysiologique et des indications thérapeutiques rigoureuses permettent toutefois de la sauvegarder jusqu'à son remplacement naturel par la dent définitive sous-jacente.

APRÈS MIDI

PERSPECTIVE DU FUTUR EN RESTAURATION ADHÉSIVE

Panel

Les dentines en tant que biomatériaux dentaires : dentine réactionnelle, réparatrice et régénération dentinaire

Michel Goldberg – France

Lors d'agressions limitées, les odontoblastes élaborent une dentine réactionnelle. Si l'agression est plus vive, les cellules pulpaires forment un pont de dentine réparatrice. On peut aussi reformer à la surface dentinaire des formes atypiques de dentine.

Place du laser en dentisterie adhésive

Marc Bolla – France

Le laser Er-YAG permet d'éliminer les tissus cariés et de préparer les tissus dentaires sains. L'aspect microscopique de l'émail et de la dentine et l'absence de débris liés au fraisage semblent favorables au collage.

Composite universel ou composites spécifiques

José Vreven – Belgique

Evaluer l'intérêt de la diversification des composites commercialisés : viscosités diverses, nano – particules, monomères, etc. Etablir un choix sur base de critères objectifs.

PROTHÈSE PARTIELLE AMOVIBLE

Evolution du concept classique au concept actuel

Alexandre Mersel – Israel

La croissance de la population âgée, entraînera une augmentation des d'édentés partiels. Avec la méthode classique, il est nécessaire de connaître le concept du châssis métallique auto amorti qui permettra de surmonter les difficultés cliniques.

LE TRAITEMENT DES TRAUMATISMES DES DENTS ANTÉRIEURES

Panel

Robert Charland – Canada

Normand Aubre – Canada

Paule Salvail – Canada

Elise Shoghikian – Canada

Le dentiste est régulièrement confronté aux séquelles que l'on observe plusieurs mois ou années après un accident. La prise en charge de la phase d'urgence, les suivis à court, moyen et long terme seront présentés.

CHIRURGIE

Dents de sagesse : extraire ou ne pas extraire

Damien Duran – France

L'avulsion systématique des dents de sagesse n'est plus de mise. L'absence de facteurs prédictifs fiables limite la valeur de nos recommandations. Cependant un ensemble d'arguments nous permette d'éviter l'avulsion inutile ou la conservation nuisible.

For continual updates on the Scientific Programme please visit:

www.fdiworldental.org

Your Own Presentation

An important function of the Annual World Dental Congress is to offer colleagues the opportunity to make their own presentations in the following two forms:

- **Free Communications** – a ten minute verbal presentation on a topic of your choice followed by a three minute discussion.
- **Posters** – presentation of a topic of your choice in the form of a poster. The authors of the selected posters will be required to give verbal comments during a set time (normally during lunch breaks).

If you would like to make a presentation at the Congress, you should complete the Presentation Application Form, which is available on request from the FDI's Head Office in France and in a downloadable pdf format on the FDI's website, www.fdiworldental.org. To be considered for acceptance and inclusion in the Congress Programme, the application form must be received by the FDI's Head Office in France no later than 1st March 2005. If the abstract is firstly accepted, presenter must register and pay appropriate registration fee prior to meeting date for the abstract to be fully accepted.

All applications will be reviewed by the FDI's Education Committee. Excellent abstracts will be considered for publication in the International Dental Journal. Accepted abstracts will be scanned for publication and mounted on the FDI website.

Poster Competition

The competition will be conducted in 2 phases:

Phase 1 - During the review process by the EC. During this phase, not more than 12 selected posters will be invited to make a Poster-discussion presentation during the main Conference.

Phase 2 - The on-site poster discussion during which a panel of 3 expert judges will be appointed to view and discuss the presentations (15 minutes each).

150cm

100cm

POSTER AWARDS

All delegates have the opportunity to compete for six awards in the FDI/Unilever Poster Competition. Each winner will receive free registration to a future FDI Congress and €1,500 towards your participation.

Terms and Conditions Apply.

The International Dental Journal

Subscribe Today, to the FDI's Premier Publication

Includes

a News and views section, informing members of news from the FDI and around the world of dentistry in a similar format to FDI World.

Features

an innovative section on practical, informative articles aimed at clinicians and illustrated in full colour.

Includes

details of forthcoming FDI Annual World Dental Congresses.

Continues

to publish peer-viewed, scientific articles relevant to international dentistry in the recently re-launched and popular style.

Published six times a year

£50 for members of National Dental Association.

Offer excellent subscriptions

to existing IDJ subscribers and to 'former FDI Individual Members' and to individual members of national member associations.

How to subscribe to the IDJ

You can subscribe to the **IDJ** simply by visiting the FDI website at:

THE WORLD DENTAL EXHIBITION

OVER **150,000** PEOPLE SHARING KNOWLEDGE SINCE 1996

EXHIBITION OPENING HOURS:

Wednesday 24 August	9.00 - 18.00
Thursday 25 August	9.00 - 18.00
Friday 26 August	9.00 - 18.00
Saturday 27 August	9.00 - 14.00

The FDI's World Dental Exhibition has provided over 150,000 people since 1996 the opportunity to witness and experience some of the latest and proven products, innovations and science under one roof. The International and Canadian industry now welcomes you to experience this wonderful and unique opportunity at the Palais des congrès in Montréal.

As always the Exhibition will run parallel to the Scientific Programme under one roof with easy access between the exhibition and meeting rooms.

Don't miss the opportunity to see what's new, ask questions, sample and explore all that's topical and fascinating in the dental world.

As a Congress participant, admission to the exhibition is free and you can therefore come and go as you please throughout the four days.

OPTIONAL SOCIAL PROGRAMME

OS1 Welcome Ceremony

A spectacular beginning to the congress, the Welcome Ceremony will reflect the traditional elements of Canada's heritage.

The Ceremony will be followed by feature performances.

Date & Time: Wednesday 24th August 2005, 19.00 – 20.30 (doors open at 18.00)
Venue: Salle 210 AH, Palais des Congrès
Cost: Free to registered participants – limited attendance, ticket required

OS2 Canadian Night

Canada at the rhythm of the seasons, fall, winter, spring and summer, will be illustrated on giant screen with music and dances.

A unique showcase of Canadian scenery!

Date & Time: Thursday 25th August 2005, 21.00 - midnight
Venue: Palais des congrès de Montréal
Cost: CAN\$ 80

OS3 Gala Dinner

Chalet Mont-Royal is an elegant building situated on a Montréal promontory that dominates an immense stone lookout offers a breathtaking view of downtown Montréal.

This Gala event will be a magical journey of sight, sound and taste.

A unique event, not to be missed...

Coach transport provided
Black tie required

Date & Time: Friday 26th August 2005, 18.00 – midnight
Venue: Chalet Mont Royal
Cost: CAN\$ 215 per person

OS4 FDI Montréal 2005/Aurum Classic Dental Golf Tournament

Les Quatre Domaines is a 36 hole course, one of the finest Golf Club courses in Québec, located at the foot of the beautiful Laurentian Mountains.

Benefits will be shared by Dentistry Canada Fund, Fondation de l'Ordre des Dentistes du Québec and FDI Funds.

SPECIAL CONTEST: \$1,000,000 SHOOT OUT.

1. Player must succeed the qualifying hole; must be 150 yards, Par 3. it is a \$50,000 Hole in One.

2. \$1,000,000 Hole in One for the winner of the qualifying hole during regular play as well as any other golfer from previous 2005 tournaments, 165 yards-Par 3.

Location: Les Quatre Domaines Golf Club,
18400 CH Notre-Dame, Mirabel, Québec, J7J 2A6,
www.golflesquatredomaines.ca
Tel : +1.450.434.00.48

Departure Time: The tournament will be a shotgun event starting at 13:00

Date: Monday, August 22nd, 2005

Cost: CAN\$ 225 (Includes Green fee, Cart and Dinner). CAN\$ 70 (Dinner only)

ACCOMPANYING PERSONS PROGRAMME AND SPORTS

These tours, designed by Visites de Montréal DMC are for participating delegates and accompanying persons of the FDI Annual World Dental Congress 2005. Only the best aspects of Montréal and its environments have been incorporated to provide value for money for persons whose time is at a premium.

All sightseeing tours include informative English speaking commentary, all entry fees and meals where specified. Comfortable shoes and clothing are recommended for all tours.

All tours are based on a minimum number of participants. If minimum numbers are not reached, alternative arrangements or a complete refund will be made. Places on all tours are limited and will be allocated strictly in order of receipt of payment.

Some tickets might be purchased on site depending on availability on the tours. Credit card (Visa, MasterCard, and AMEX), cash or travelers checks are accepted on site. Tickets will be sold in Canadian currency.

All excursions and tours will leave from the Palais des Congrès. Participants must present themselves at the entrance 10 minutes prior to departure date.

CITY TOUR: Montréal mixes trendiness and tradition

Discover Montréal with its bi-cultural heritage and cosmopolitan blend of the old and new on this comprehensive overview of our city. Old Montréal's rich architectural and historical legacy, the financial district, Montréal's leading museums, the cultural and performing arts institutions, Montréal's elegant upper class communities, Montréal's four universities and the world renowned St. Joseph's Oratory. Along the way, the tour includes a stop at the summit of Mt. Royal Park for a panoramic view of Montréal and a guided visit of Notre-Dame Basilica, an outstanding example of neo-gothic architecture. Time permitting, a short drive will be taken through Ste.Helene and Notre-Dame Islands, sites of Expo '67 and the Montréal Grand Prix.

APIB	Tuesday 23rd August 2005	13.00-16.00
APIA4	Wednesday 24th August 2005	09.00-12.00
APIA5	Thursday 25th August 2005	09.00-12.00
APIA6	Friday 26th August 2005	09.00-12.00

Cost: CAN\$ 40 per person

This price includes the following:

Professional Guide; Deluxe Motor Coach; Admission Fees; All Taxes and Gratuities; A Visites de Montréal DMC Coordinator

Botanical garden, Olympic tower and Biodôme

Travel along the St. Lawrence River to the second largest Botanical Garden in the world displaying more than 20,000 species of flowers and plants in 30 outdoor gardens and 10 greenhouses. It houses a remarkable collection of bonsai and orchids. You can choose to visit the Exhibition Greenhouses, the Japanese Pavilion, the Chinese Garden, the Arboretum or the Insectarium.

The next visit will bring you to the Biodôme, a unique concept of a "living" museum. Wander through four full scale natural

ecosystems of the Americas: the Tropical Forest, the St. Lawrence Marine, the Laurentian Forest and the Polar World, complete with landscapes, waterfalls, rivers, flora and birds, animals and fish. Our last stop is at the Olympic Tower and the buildings constructed for the 1976 Olympic Games. You will ride the Funicular to the top of the world's tallest inclined tower to admire the view of Montréal and the river.

AP2A	Saturday 27th August 2005	09.00-13.00
AP2B	Wednesday 24th August 2005	13.30-17.30

Cost: CAN\$ 64 per person

This price includes the following:

Professional Guide; Deluxe Motor Coach; Admission Fees; All Taxes and Gratuities; A Visites de Montréal DMC Coordinator

Old Montréal Walking Tour

Departing from the Montréal Convention Center; your guide will walk you back through 365 years into the life of the first settlers of Montréal. In this historic quarter; you will stroll through a maze of narrow cobblestone

lanes and old buildings, providing a perfect opportunity to discover the history and charm of Old Montréal. En route you will see Place d'Armes, Jacques Cartier Square and Montréal City Hall.

Wear comfortable shoes!!

AP3A	Wednesday 24th August 2005	09.00-12.00
AP3B	Monday 22nd August 2005	13.00-16.00

Cost: CAN\$ 35 per person

This price includes the following:

Professional Licensed Guide; Admission Fees; All Taxes and Gratuities; Coffee Break; A Visites de Montréal DMC Coordinator

Old Montréal walk and Cruise on the Bateau-Mouche

Leaving from the Montréal Convention Center, you will walk through Old Montréal alongside old buildings and discover our colorful past. After approximately an hour, we will board a Paris-style river boat, a glass-roofed boat called Bateau-Mouche. Relax in comfort and discover the magnificent view of Montréal and the Saint-Lawrence River: Le Bateau-Mouche will trace its way under Montréal's bridges, then around Sainte-Helen's island in the Chenal Lemoyne and upstream against the Sainte-Marie current.

AP4 Thursday 25th 2005 13.30-17.00

Cost: CAN\$ 55 per person

This rate includes the following:

Professional guide; Cruise; Beverage; All taxes and Gratuities; A Visites de Montréal DMC Coordinator

The Laurentian Mountains

The Laurentians, one of the oldest mountain chains in the world, lies just 20 miles north of Montréal. This scenic region of mountains, lakes and rivers is the "playground" of Montréalers who enjoy fishing, skiing or golfing. The region has been developed to preserve its natural setting of vast forests, quaint villages, lush valleys and crystal-clear lakes. You will observe typical villages en route to the region's foremost resort, Mont Tremblant. There will be some free time to shop and browse around in the charming Village St. Bernard, for the more adventurous at heart, a ride in the Gondola to admire the panoramic view from atop the mountain. Bring your camera! Lunch will be in the heart of The Laurentians.

AP55 Thursday 25th August 2005 09.00-17.00
 AP56 Friday 26th August 2005 09.00-17.00

Cost: CAN\$ 105 per person

This price includes the following:

Professional Guide; Deluxe Chartered Transportation; Gondola Fee; Lunch and Beverages (soft drink, coffee, tea); All taxes; A Visites de Montréal DMC Coordinator

Jet boating in the Lachine Rapids

After a short walk from the Convention Center to the Old Port of Montréal, you will experience a great and most unique attraction on Canada's foremost river; the St. Lawrence. History and excitement rolled into one tour. The ride goes through the last remaining rapids of the river and the powerful engines propel the boat past the Montréal's skyline, St. Helen's Island, Nun's Island and...the white froth of the Lachine Rapids appears... You will get wet! Bring a change of clothes (rain coat, boots and life jackets are provided).

AP6A Thursday 25th August 2005 – 18 years+ 15.00-17.30
 AP6B Thursday 25th August 2005 – 13-17 years 15.00-17.30

**Cost: CAN\$ 82 per person (18 years +)
 CAN\$ 72 per youth (13-17 years old)**

This rate includes the following:

Professional guide; Transportation (return only); Cruise and equipment; All taxes; A Visites de Montréal DMC Coordinator

The Richelieu Valley: A Gourmet Region

The Richelieu Valley, also called the Apple Region offers panoramic scenery coupled with an ideal climate for the gardening of market produce. The Monteregian hills are surrounded by apple trees, and other orchard-related industries. During the tour you will visit a Cider and a Vinegar plant displaying products derived from apples. Following a delicious meal in the village of Chambly on the banks of the Richelieu River, comes a visit of gourmet chocolate makers and tasting in Mont-Hilaire.

AP7 Thursday 25th August 2005 09.00-16.30

Cost: CAN\$ 108 per person

This price includes the following:

Professional Guide; Deluxe Motor Coach; Admission Fees; Lunch; All Taxes; A Visites de Montréal DMC Coordinator

Historical Homes witness of life in New France

This tour will make you discover the way of living of two generations of settlers living in Montréal at the turn of the 16th century through the visit of two historical homes. First, The Maison St-Gabriel (1698), home that was used by Marguerite Bourgeoys, Montréal's first teacher, to educate the King's wards that had been sent to New France to marry the settlers. This religious order, the Congregation Notre-Dame, still occupies the building and will guide you through their collection of objects and furnishings from the 18th and 19th centuries. Then, the Château Ramezay (1705), the former residence of the French Governor of Montréal, is now a historical museum and an example of domestic architecture in New France.

AP8 Friday 26th August 2005 13.00-16.30

Cost: CAN\$ 60 per person

This price includes the following:

Professional Guide; Transportation; Admission fees; A Visites de Montréal DMC Coordinator

Biking along the Lachine Canal

This tour will start from the Old Port in Old Montréal and will bring you on the bicycle path alongside the Lachine Canal stretching from Montréal through Lac-St-Louis. The Canal, built in the late 19th century to avoid the rapids, is surrounded by 140 kilometres of bicycle paths. This relaxing bicycle excursion (nice and easy flat land), on a 25 km portion of the path, allows the participants to discover a part of our history, in a park-like setting and to meet some Montrealers. The Lachine Canal recently reopened to small boat navigation.

AP9 Friday 26th August 2005 13.00-17.00

Cost: CAN\$ 60 per person

This rate includes the following:

Professional guide; Bicycle; Snack; All taxes; A Visites de Montréal DMC Coordinator

A Lunch of Creation at an Artist's private Home

A lunch will take place in Ville des Cèdres, 45 minutes from Montréal, at the beautiful country home of Bernard Séguin-Poirier; a renowned Québec artist. Mr. Séguin-Poirier's media is enamel on copper. Drinks and canapés will be served on the terrace overlooking the picturesque St. Lawrence River. A delicious catered lunch will follow while the artist will create a piece of art. A drawing will take place and the fortunate winner will leave with an original Bernard Séguin-Poirier piece!

Rendez-Vous in Québec

Classified as an international heritage site in 1985 by UNESCO, the city of Québec, capital of the Province of Québec, is the only remaining entirely fortified city in North America. Founded in 1608 by Samuel de Champlain, Québec was the first permanent European settlement in New France. A natural citadel, the site dominates the St. Lawrence. Renowned for its European flavour, the city offers a rich architecture. During the tour you will see the Plains of Abraham, Notre-Dame Basilica, Place Royale, the National Assembly, the Citadelle and the famous Château Frontenac. Lunch will be included at one of Québec's charming restaurants. See if you can resist the ambiance of Québec City!

API2 Friday 26th August 2005 All Day

Cost: **CAN\$ 110 per person**

This price includes the following:

Professional Guide; Deluxe Motor Coach; Specialized tour guide from Québec City; Lunch; All Taxes and Gratuities; A Visites de Montréal DMC Coordinator

Youth Tour Programme:

An exciting full day tour – Biodôme, Insectarium, La Ronde

Visit the Biodôme, with landscapes, waterfalls, rivers, live collections of plants and animals in a natural environment and wander through its 4 full scale natural ecosystems of the Americas: the Tropical Forest, the Laurentian Forest, the St. Lawrence Marine and the Polar World.

The Insectarium aims first and foremost to awaken visitors to the wonders of the insect world, and to explain how insects play an essential part in ensuring the Earth's ecological balance. The world's most beautiful insects are waiting for you to admire.

Visit La Ronde the largest amusement park in Quebec, it has been opened for over 35 years. Find fun and thrills at every turn: the Cobra, the Boomerang, the Monster, the splash are only a few of these exciting rides.

API3A Friday 26th August 2005 08.30-17.30
 – 6-12 years old

API3B Friday 26th August 2005 08.30-17.30
 – 13-16 years old

Ottawa, Canada's Capital

Located on the Ottawa River, 200 kilometers west of Montréal, Ottawa was chosen the capital of Canada by Queen Victoria in 1858. Over the past century, this former lumber town has gracefully blossomed into a cosmopolitan city filled with neo-gothic government buildings, gardens and parks. With the help of a professional guide, we drive along Sussex Drive, the Byward Market, and the Rideau Canal and discover the many historical and charming facets of the capital city. This day includes: a visit to the Museum of Civilization, lunch and free time in Byward Market.

API4 Saturday 27th August 2005 08.00-18.00

Cost: **CAN\$ 106 per person**

This price includes the following:

Professional Guide; Deluxe Motor Coach; Specialized tour guide from Ottawa; Admission Fees; Lunch; A Visites de Montréal DMC Coordinator

PRE CONGRESS TOUR AND POST CONGRESS TOURS

PT1 / PT4: ROMANTIC QUÉBEC CITY

(PT1) Sunday 21st August 2005
– Monday 22nd August 2005
2 Days/1 Night

(PT4) Sunday 28th August 2005
– Monday 29th August 2005

COST: PT1D/PT4D CAN\$ 585 per person based on double occupancy
PT1S/PT4S CAN\$ 790 per person based on single occupancy

Québec City is the only entirely fortified city in North America. Classified as an international heritage site in 1985 by UNESCO, the city of Québec offers French culture, New France architecture, charming restaurants and is the home of the famous Château Frontenac overlooking the St-Lawrence River. A carriage ride through the cobblestone streets of the old City will make your stay a memorable and romantic stay.

DAY 1: Montréal/Québec City

- Morning departure for Québec City, the cradle of French culture and the only walled city in North America. Free time upon arrival in the upper town and lunch in a typical French restaurant. In the afternoon, enjoy a sightseeing tour of Québec's historic capital including Place Royale, the Plains of Abraham, the Citadel and the Parliament buildings.
- Lunch in Québec upon arrival
- Free evening to enjoy the restaurants and sights of Québec
- Overnight stay in majestic Château Frontenac in Québec city.

DAY 2: Montmorency Falls/Ste. Anne-de-Beaupré/Montréal

- Breakfast and tour of Montmorency Falls and Ste. Anne de Beaupré.
- There will be some time to browse in the quaint boutiques of Old Québec City before heading back to Montréal.
- Back in Montréal at around 18h30.

This price includes the following:

- Professional Tour Director
- Transportation
- Admission fees
- Meals as mentioned
- Accommodation for one night
- All taxes and gratuities

PT2: THE CHARLEVOIX REGION

Sunday 28th – Tuesday 30th August 2005
3 Days/2 Nights

COST: PT2D CAN\$ 880 per person based on double occupancy
PT2S CAN\$ 1080 per person based on single occupancy

With its stunning scenery and the outstanding beauty of its landscape overlooking the St-Lawrence River; the Charlevoix region has become Québec's favourite tourist destination. Named "World Biosphere Reserve" by UNESCO in 1989, the destination is an astonishing array of plant and wildlife. A river estuary, a fjord, caribou and whales can all be found within its borders. With a long time tradition of warm hospitality, the Charlevoix region offers charming inns, fine dining establishments, and vibrant art scene to dazzle and delight visitors.

DAY 1 Montréal / Québec / Pointe-au-Pic

- Departure for Québec City by motorcoach
- Lunch in a typical French restaurant of Québec
- Travel along the North Shore of the St. Lawrence River (peaceful scenery)
- Free evening and overnight in Pointe-Au-Pic

DAY 2 Pointe au Pic / Tadoussac / Pointe au Pic

- Breakfast in Pointe au Pic
- Visit of the Charlevoix Region and Baie St. Paul
- Lunch in Tadoussac
- Whale watching cruise in the afternoon
- Dinner and overnight in Pointe-au-Pic

DAY 3 Pointe au Pic / Trois-Rivières / Montréal

- Breakfast in Pointe au Pic
- Lunch and brief visit of Trois-Rivières
- Arrival in Montréal at 5:00 PM

This rate includes the following:

- Professional Tour Director
- Transportation
- Admission fees
- Meals as mentioned
- Accommodation for two nights
- All taxes and gratuities

PT3: TORONTO/NIAGARA FALLS

Sunday 28th – Tuesday 30th August 2005
3 days/2nights

COST: **PT3D CAN\$ 935** per person based on
 double occupancy
 PT3S CAN\$ 1150 per person based on
 single occupancy

Toronto and The Niagara Region is a must tour during your visit to Canada. Toronto, the Canadian metropolis, is a vibrant cosmopolitan city with an active cultural life, beautiful parks and gardens and a dynamic downtown core. The Niagara Region, an hour from Toronto, is world-renowned for the majestic Falls and its award winning icewines.

DAY 1 Montréal / Toronto

- Departure from Montréal to Toronto in the morning by motorcoach
- Visit and lunch in Kingston
- Dinner at the CN Tower and overnight stay in Toronto

DAY 2 Toronto / Niagara Falls

- Breakfast and a three-hour sightseeing tour of Toronto. Major landmarks include: the banking district, clamshell blocks of City Hall, the unique mosaic of ethnic neighbourhoods, the CN Tower, the University of Toronto and the ultra-modern SkyDome.
- Departure for Niagara Falls, one of the natural wonders of the world
- Following lunch, we board the Maid of the Mist for a thrilling ride to view the thundering Falls from river level. Discover the majesty and magic of the Falls that are surrounded by city parks
- See the Niagara Park Commission Greenhouse, the Floral Clock, the Botanical Garden and the Skylon Tower
- Dinner in a vineyard in Niagara on the Lake
- Overnight in Toronto.

DAY 3 Toronto/ Montréal

- Breakfast and departure for Montréal
- En route, lunch and cruise in the beautiful Thousand Islands
- Return to Montréal approximately at 6:00PM

This price includes the following:

- Professional Tour Director
- Transportation
- Admission fees
- Meals as Mentioned
- Accommodation for 2 nights
- All Taxes and Gratuities.

Open to the world, the city and its people, the Palais des Congrès de Montréal offers visitors a warm and unique atmosphere. It is located at the heart of not one but four city districts. From the Palais des Congrès, visitors can easily access the Quartier international, Chinatown, the downtown business core or Old Montréal.

NO SMOKING CONGRESS

Please note that smoking will not be permitted inside the Convention and Exhibition Centre.

CONTACT DETAILS:

Les journées dentaires internationales du Québec
625 blvd René Lévesque, ouest 15th Floor,
Montreal, Québec H3B 1R2
Telephone: 514-875-8511
Fax: 514-875-1561
Web site: www.odq.qc.ca/jdiq/fdi2005

EMAIL COURTESY

Before emailing your query please check for the information in this brochure or on our webpage. Please allow the Housing Bureau some time to respond to your query.

PRE-REGISTRATION

Those who wish to attend the Congress should complete the Registration Form and return it to the Les journées dentaires internationales du Québec office in Montreal, Quebec by 15th July 2005. After this date, participants are required to register onsite at the Congress.

The enrolment fees are reduced for any registration received with the required payment before 15th April 2005.

Each registrant must complete a separate form. A clean photocopy of the form will be accepted, or additional forms can be obtained from the Les journées dentaires internationales du Québec office. Alternatively, registrations can be made via the Congress website www.odq.qc.ca/jdiq/fdi2005 Please read through this booklet carefully before you complete your form. If registering by mail please use AIRMAIL.

ENTITLEMENTS

DELEGATES

The registration fee entitles delegates to the following:

Access to all lectures in the Scientific Programme
World Dental Exhibition
Welcome Ceremony
Congress Documentation
Congress Bag

ACCOMPANYING PERSONS

Accompanying persons are defined as spouses and partners of full registrants. Registration includes:

Welcome Ceremony
World Dental Exhibition

In addition, accompanying persons may attend all social and sporting programmes at their own expense. Please note that the registration fee is for the full four inclusive days. This does not guarantee you a seat at any particular scientific session. We recommend arriving early to avoid any possible disappointment.

PRE - REGISTRATION

Registrations will not be processed or confirmed until payment in full is received.

Credit card payment by Visa / MasterCard only.

When paying by credit card, the registration form should be completed with card number, expiry date, signature and the cardholders address.

The payment by bankers' draft or cheque shall be payable to FDI Montréal 2005 (AWDC).

ON- SITE REGISTRATION

It will be possible to register upon arrival at the Palais des Congrès in Montréal for the scientific programme and purchase tickets for the social programmes, tours and excursions, subject to availability. An administrative fee will be charged for on-site Congress registration.

Payment may be made by personal cheque or credit card. Bankcard, MasterCard and Visa card are accepted at the Congress. Cheques should be made payable to the FDI-AWDC Montreal 2005. Your full name and address should be printed clearly on the back of the cheque.

Please note: all transactions by credit card will appear on your statement as a payment to FDI-AWDC Montreal 2005.

ACKNOWLEDGEMENTS

Your registration and payment will be acknowledged in writing with confirmation of your requirements according to your registration form. Your registration will not be processed or confirmed if payment does not accompany your form.

You will not receive any further publications before the Congress. Your letter of acknowledgment will include any further advice necessary prior to your arrival at the Congress.

CHANGES AND CANCELLATIONS FOR REGISTRATION, SOCIAL PROGRAMME AND DAY TOURS

Any changes or cancellations must be received in full and in writing. No changes requested by telephone will be accepted. Refunds will be issued according to the reimbursement rules. Please allow a minimum of 8 weeks for processing any refund. Refunds are based on the total transactions for all enrolment fees, courses, tours, events (excluding post congress tours – see terms in post congress tour section). Participants are advised to keep a copy of the registration form.

Cancellation Dates:

Before 1st May 2005 90% reimbursed

Before 2nd July 2005 80% reimbursed

After 2nd July 2005 no reimbursement

ENTRANCE TO CONGRESS

Each member of the Congress will receive a name badge upon registration. The badge will be your official pass and must be worn to obtain entry to all sessions and social functions.

CERTIFICATE OF ATTENDANCE

A Certificate of Attendance will be issued to all dental participants of the Congress. Certificates of Attendance will also be issued for ticketed courses.

ADAC·E·R·P®

CONTINUING EDUCATION RECOGNITION PROGRAM

The FDI World Dental Federation is an ADA CERP recognised provider. Delegates who have registered for the Congress are eligible to receive continuing education points by attending scientific sessions throughout the meeting. Forms can be found in your registration pack and delegates are responsible for completing the forms accurately and keeping them for recording purposes.

REGISTRATION

Registration and check in for all pre-registered participants and others will be located in the Viger Hall of the Montréal Convention Centre. On presentation of the registration confirmation, participants will receive the Congress documentation, pre-ordered tickets to courses, events and tours. The official programme for the FDI 2005 Congress and the official FDI World Dental Exhibition Catalogue will also be provided.

LANGUAGES

Scientific and educational programmes will be held in English and French. Some of the English programme may be interpreted in French, German, Spanish and Japanese for selected sessions.

INSURANCE

Registration fees do not include insurance of any kind. It is strongly recommended that at the time you register for the Congress and book your travel you take out an insurance policy of your choice. The policy should include loss of fees/deposit through cancellation of your participation in the Congress, or through cancellation of the Congress, loss of international/domestic air fares through cancellation for any reason, loss of tour monies through cancellation for any reason including airline or related services strikes within Canada, failure to utilise tours or pre booked arrangements due to airline delay, Force Majeure or any unforeseen or unrelated event, medical expenses, loss or damage to personal property, additional expenses and repatriation should travel arrangements have to be altered. The Congress organisers cannot take any responsibility for any participant failing to arrange their own insurance. This insurance is to be purchased in your country of origin.

OFFICIAL AIRLINE

The Star Alliance Members are pleased to be appointed as the Official Airline Network for FDI Congress 2005

To obtain details and conditions on Star Alliance™ Conventions Plus discounts and participating airlines*, please contact your local Star Alliance Member and quote the following Event Code AC005S5

When making your travel plans please present confirmation of your registration on proof of attendance and ensure that the

Event Code is listed on your ticket.

For further information about Star Alliance Members please visit: www.staralliance.com/conventionsplus

AIRPORT AND TRANSPORT

Downtown Montréal, where the Convention Centre and most major hotels are located, is 22 km (14 miles) South-East of the International Airport. The city centre can be reached in approximately 20 minutes by car. A taxi costs approximately \$30.00 Canadian dollars, limousines \$50.00 and buses \$10. A regular airport to city bus service operates from approximately 7 a.m. to 1 a.m. (not recommended for those with large amounts of luggage). Any queries please see the Travellers Information Desk at the Airport.

TAXIS

Taxis in Montréal operate under one pricing structure with a minimal starting fee of \$2.75 CDN and \$1.30 each additional kilometre. Please check the meter is set when you begin your journey.

BUSINESS HOURS

Banks generally open from 10.00 – 15.00 hours Monday - Friday. General office hours are 09.00 – 17.00 Monday - Friday. Post Offices operate these hours, however stamps are often available from hotels.

CLIMATE AND CLOTHING

August is summer and the temperature range is 11°C to 25°C. We suggest you bring a jacket and tie with you for special occasions. A light jacket is recommended for evenings. Coat and tie may be required in some restaurant at night.

EATING OUT

Bistros, restaurants, cafes and coffee shops offer varied menus, prices and decor. Local specialties such as seafood and Canadian ice wines and ice cedar are worth trying. At some restaurants you can keep the liquor bill down by taking your own wine or beer.

SHOPPING

Shops in Montréal open from 0900 to 1730 during the week with late night shopping on Thursday and Friday. On Saturdays, most shops open from 0900 to 1800. On Sunday major department stores in the centre of the city are open from 1000 to 1600.

TIME

Montréal is 4 hours behind Greenwich Mean Time.

TIPPING

Tipping is your prerogative, a reward for service. It is customary to tip hotel porters and a gratuity of about 15 per cent is usual in restaurants if good service is received. Tips for taxis are regarded as optional.

ACCOMMODATION

General notes on reservation

- Unless noted otherwise, all rooms are standard rooms.
- Should a late arrival be expected, please indicate it on your housing form. In most hotels, check-in starts at 13h00 and arrival after 16h00 is considered late arrival.
- Reservation, changes and cancellations instructions appear on your housing form.
- Taxes are not included.
- Please contact your hotel for their cancellation rules.
