

October 1, 2008

Dear Members and Donors,

Recently there have been some changes in structure and operations at AboutFace in the United States. The Board and management of AboutFace USA have decided to forge a new organization to reflect their vision and direction. We wish them success.

With that change, AboutFace is proud to incorporate the members and friends of AboutFace USA into its main operations and will continue to serve its members from across North America from its head office in Toronto, Canada.

US members are welcome to connect directly to AboutFace to access our online community bulletin boards, elementary school programs, e-newsletters, publications, adult tele-seminars, youth camps – Camp Trailblazers and biennial global conference. These are just a few of the many programs and services we offer. To ensure your membership with AboutFace is active, go online and sign up or call us on our North American Toll Free Hotline – 800-665-FACE x21.

Since 1985, AboutFace has served individuals and families touched by facial differences. We have established a strong reputation of producing quality resources and educational programs; as well as providing emotional support services and networking to encourage, empower, those touched by facial differences.

Our vision of expanding around the world continues with the reality that via the internet, the world is accessible to anyone, and information, experiences and friendships can be shared, nurtured and strengthened through this medium.

We look forward to continue serving you.

Sincerely,

Dr. Jim Anderson
AboutFace
Chairman of the Board
