

COVID-19 and the Dental Aptitude Test in 2021

As the administrator of the Canadian DAT exam, the CDA has made it our priority to respond and adjust to the unprecedented events of these past months. We understand that every potential applicant to dental school is experiencing challenges that no one could have anticipated.

To allow the DAT in to be offered in the safest possible way, the Canadian Dental Association has contracted the delivery of the exam to Prometric. The network of test centers operated by Prometric allows the DAT to be offered to multiple small groups in settings that allow for physical distancing and meet all currently applicable public health requirements.

For more information about Prometric test centers and COVID-19 updates please visit the Prometric web site at <https://www.prometric.com/corona-virus-update>.

To better understand the safety procedures at Prometric test centers and what to expect on test day, it is important that you watch the following video: <https://www.prometric.com/test-takers/what-expect>.

To get the latest information about Prometric requirements for admission to the test centers and test center policies during COVID-19, please visit the Prometric web site at <https://www.prometric.com/covid-19-update/test-center-policies>.
